SAVEPAMBULAHOSPITAL.COM

PETITION

To the Hon. The Speaker and Members of the Legislative Assembly of New South Wales.

The petition of residents of the Far South Coast brings to the attention of the House the parlous state of Pambula Hospital following the downgrading of services by the State Labor Government.

The undersigned petitioners therefore ask the Legislative Assembly and NSW Government to return services to Pambula Hospital, develop a new clinical services plan, engage and consult nurses and doctors about services at the facility and in doing so address the low morale, overhaul governance at the hospital, ensure better utilisation of the hospitals operating theatre by enhancing services, provide additional resources for maintenance, ensure better co-ordination between Pambula and Bega hospitals and consult with the local community about the facilities future when a new regional hospital is being built.
